2005 BILL

- gen. cat.

- 1 AN ACT ...; relating to: using accumulated unused sick leave credits and health
2 insurance premium credits for the purchase of long-term[✓] care insurance for
3 participants under the Wisconsin retirement system.

Analysis by the Legislative Reference Bureau

Under current law, with certain exceptions, if a state employee who is eligible for coverage under the state group health insurance program terminates employment in a position that is covered under the Wisconsin Retirement System and has attained the minimum age to begin receiving a retirement benefit, or if a state employee who is eligible for coverage under the state group health insurance program is laid off, the employee's accumulated unused sick leave may be converted, at his or her basic pay rate immediately prior to termination, to credits for the payment of health insurance premiums during the employee's retirement or period of layoff. Also, the Department of Employee Trust Funds currently administers a program that permits state employees to use certain health insurance premium credits for the purchase of health insurance on retirement if their compensation provides for such health insurance premium credits.

This bill provides that these credits may be used both for the purchase of health insurance and long-term[✓] care insurance. Under the bill, however, a participant may only use the credits for the purchase of long-term care insurance if he or she is not using the credits for the payment of health insurance premiums under the state group health insurance plan and if the participant is covered by a comparable health insurance plan or policy.

BILL

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

1 **SECTION 1.** 40.04 (10) of the statutes is amended to read:

2 40.04 (10) An accumulated sick leave conversion account shall be maintained
3 within the fund, to which shall be credited all money received under s. 40.05 (4) (b),
4 (bc), (bf), (bm), (br), and (bw) for health insurance and long-term care insurance
5 premiums, as dividends or premium credits arising from the operation of health
6 insurance and long-term care insurance plans and from investment income on any
7 reserves established in the fund for health insurance and long-term care insurance
8 purposes for retired employees and their surviving dependents. Premium payments
9 to health and long-term care insurers authorized in s. 40.05 (4) (b), (bc), (bf), (bm),
10 and (bw) shall be charged to this account. This subsection does not prohibit the direct
11 payment of premiums to insurers when appropriate administrative procedures have
12 been established for direct payments. Premium payments for long-term care
13 insurance may only be charged to this account if the participant is not using credits
14 under s. 40.05 (4) (b), (bc), (bf), (bm), (br), and (bw) for the payment of health
15 insurance premiums and if the participant is covered by a comparable health
16 insurance plan or policy. A health insurance plan or policy is considered comparable
17 if it provides hospital and medical benefits that are substantially equivalent to the
18 standard health insurance plan established under s. 40.52 (1).

4 dividends or premium credits arising from the operation of health insurance and
5 long-term care insurance plans and from investment income on any reserves
6 established in the fund for health insurance and long-term care insurance purposes
7 for retired employees and their surviving dependents. Premium payments to health
